Scan Sizes

The maximum 8 bit RGB scan size recommended for 35mm is 100mb. Larger sizes are available for larger film formats. Greyscale scans are one third as large. 16 bit scans double the file size. Refer to website for specific sizes.

Border

Our prints are by default full frame, with 1/4 inch borders on the long dimension. If you have different requirements, please note.

Bit Depth

The default bit depth is 8 bit. For more information on about 16 bit scans, refer to the Whitepaper section of the Infobase area on our website.

Proofing

We strongly recommend proofing your image before making the final print.

This agreement applies to all materials, including film, storage media and artwork, submitted by ("the Client") to Color Folio, including officers, employees and representatives, and affiliates of Color Folio.

By submitting materials to Color Folio, the Client is granting a license to Color Folio to use such materials in order to perform the activity requested by the Client and thus waives any claims against Color Folio for infringement of the Client's copyright, trademark or intellectual or property interests in materials submitted in the performance of the requested activity. The Client also represents and warrants that submitted materials do not violate or infringe upon the copyright, trademark or intellectual property rights of any third parties. If a third party claim is brought against Color Folio as a result of any interests in the material submitted by the Client, the Client agrees to hold harmless and indemnify Color Folio against all such claims.

Color Folio makes all reasonable efforts to ensure that all materials are handled with care but acknowledges that such materials may become damaged in the course of handling and processing. By submitting materials to Color Folio, Client assumes this acknowledged risk and agrees that the liability of Color Folio to these submitted materials is limited to the replacement of the raw materials (or their value) used to create the original material.
