Scan Sizes

The maximum 8 bit RGB scan size recommended for 35mm is 100mb. Larger sizes are available for larger film formats. Greyscale scans are one third as large. 16 bit scans double the file size. Refer to website for specific sizes.

Border

Our prints are by default full frame, with 1/4 inch borders on the long dimension. If you have different requirements, please note.

Bit Depth

The default bit depth is 8 bit. For more information on about 16 bit scans, refer to the Whitepaper section of the Infobase area on our website.

Proofing

We strongly recommend proofing your image before making the final print.
