Please fill out this form if you are ordering a Print Package. Otherwise, please use one of the attached order forms.

**Scan Sizes**

The maximum 8 bit RGB scan size recommended for 35mm is 100mb. Larger sizes are available for larger film formats. Greyscale scans are one third as large. 16 bit scans double the file size. Refer to website for specific sizes.

**Border**

Our prints are by default full frame, with 1/4 inch borders on the long dimension. If you have different requirements, please note.

**Bit Depth**

The default bit depth is 8 bit. For more information on about 16 bit scans, refer to the Whitepaper section of the Infobase area on our website.

**Proofing**

We strongly recommend proofing your image before making the final print. We include a free 8x10 proof with the Piezography package.
